

**Global™  
van+**

**user's  
guide**

# Table of Contents

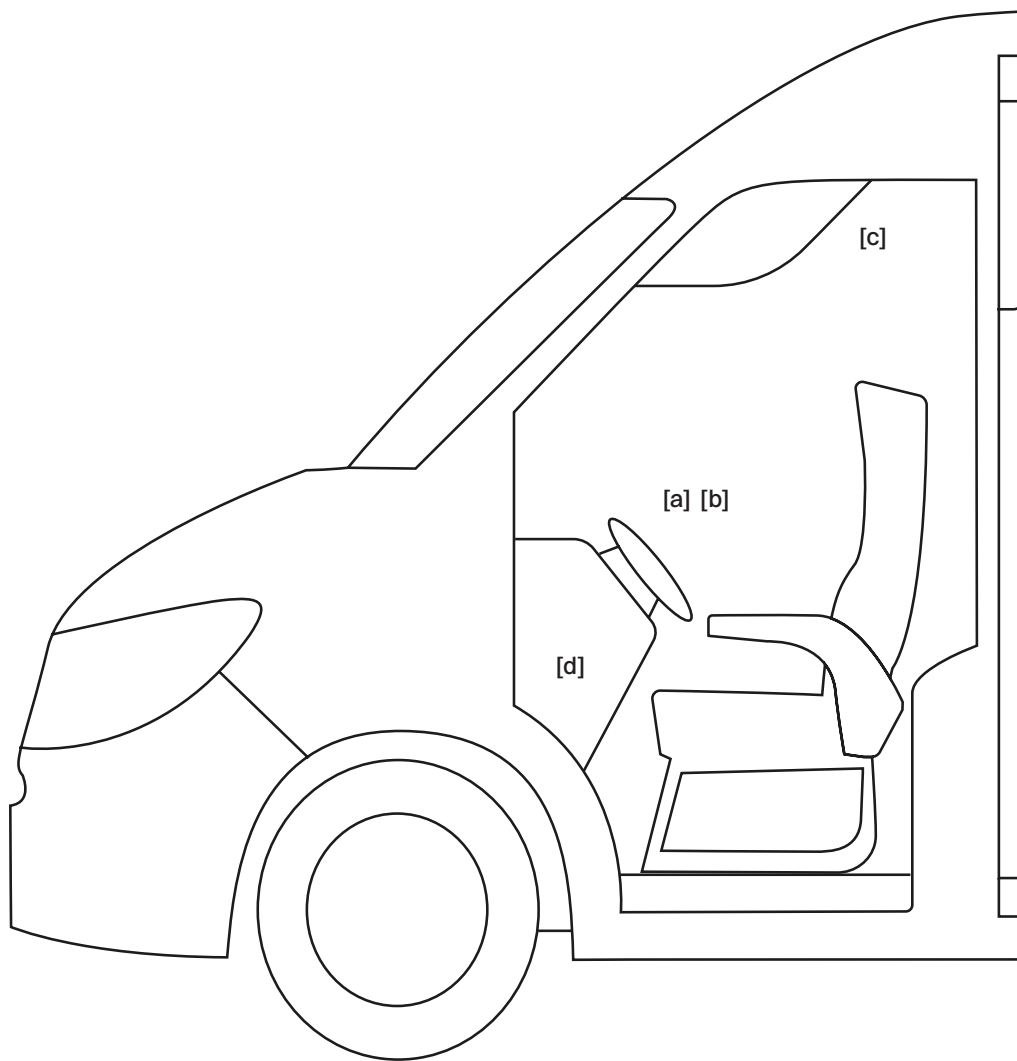

The Global™ van+ provides all the facilities to have a complete mobile production space. Within the same cabin, you'll find a workspace and relaxation area, and at the rear of the vehicle, there is a fully equipped hair and makeup room. The fully modular workspace can be used as an office, van car, or dressing room. The van+ also provides high-speed internet connection everywhere through its StarLink antenna.

# Driver's seat

## [a] Vehicle height

The maximum height of the vehicle is 2.80 meters. You will find an indication on the side of the steering wheel.

## [b] Run Lock option

The Run Lock option allows you to keep the truck engine running even after removing the keys from the ignition.

It can be activated by pressing the button with the same name. Do not activate the Run Lock if the engine is not running, as it could drain the main battery.

## [c] Media operation

Step 01: Ensure the ignition is engaged and press the «General Cut Off» and «Sono» buttons located above the driver's cabin.

Step 02: To turn on the Apple TV, press the «Menu» button on the remote control.

Step 03: To use the soundbar, press and hold the power button on the remote control.

# Driver's seat

[d] Reversible air  
conditioning

The control is located to the left of the steering wheel. Press and hold the button on the right to turn it on. Use the arrow to increase or decrease the temperature.

# Driver's seat

[01] Yellow jacket

Nine yellow vests are located in the holder above the driver's seat.

[02] Medical kit

It is located in the driver's door pocket and includes:  
A breathalyzer, Band-aids, Adhesive tape, Scissors  
An emergency blanket, Gloves, Dressings

[03] Warning triangle

A warning triangle is located in the passenger door. It should be used in case of incidents on the road.
